Alexandria Gazette

MONDAY EVENING, AUGUST 29.

A NEW SUBMARINE VESSEL -A young Raumsoino engineer, Trajan Theodoresco, bas succeeded in constructing a submarine vessel which su's everything that has gone before in submatine navigation completely in the shade. This boat, up to a certain maximum size and carresponding toonage, it is said, may be navigated under water for twelve hours at a stretch at a depth or 100 fee; she may, however, secording to the inventor, be lowered to over 300 feet below the surface of the water and without coming icto contact with the atmosphere. On the surisco of the water the vessel may be mato avred under the same conditions as an ordinary steamboat. Her speed, however, is not so great as that of steamers, but greater than that of sailing vessels. The submersion is effected by screws and vertically, citner suddenly or successively, and the vessel is raised in the same way. If once under water sufficent light is supplied enabling these on board to see all obstacles at all distances up to 130 feet, and the movement of the boat may be so regulated as to avoid them. The air supplied for the eraw is said to last for from twelve to fourteen hours. In case of need the reservoir containing the air my be refiled while under water for another twelve hours, pipes telesoping into each other being directed to the surface for that purpose. The propulsion of the vessel and its submersion are stated to cause no noise. Should all these particulars prove correct the novel boat will be the most formidable vassel for torpedo warfare. Buy she may als be turned to more useful purposes. In the Matchin Canal, near Brails, there lies, sicce May, 1877, the Lutfi Djelit, which had on board the war chest of the Turkish Darube flottila, amounting so report says, to several million plastres It might be possible to recover that sum by means of the new submarine poat, and if the experiment should prove successful it would at the same time be profitable.

Ask your draggist for a copy of "Young Mon's Friend"-and read it!
